

ROWE SCIENTIFIC WEB STORE – QUICK ORDER NOTES

Quick Order

There are two parts to this feature:

1. “Your top 10 most purchased items”. This is a list of the ten common items you have purchased in the past 90 days.
2. “To be added”. This feature also allows you to select items by expanding the “To be added” link which will list, by category (e.g. Glassware, Filter Paper), items you have added to this list.

You can purchase from both by entering the number of units in the Qty box.

Your Quick Order page has been modified to make it even easier to order!

All items in your Quick Order are now grouped by category and group. Simply click on the category and group to expand it and see the items inside. Additionally, the items you ordered most often in the last 90 days are listed out under *Your Top 10 Most Purchased Items*.

Finally, you no longer add the items one at a time. Simply enter the desired quantities for as many items as you wish and click *add all to trolley*.

How to build/add to your Quick Order list

You can add to your quick order list when viewing a product (by selecting to view it by clicking the product from any main list) and selecting “add to quick list”. In this way you can build a list of most commonly used purchased items and simply do your purchasing from the Quick Order screen in future visits.
