

19th June 2023

To Whom it May Concern,

You may have recently been made aware that after 34 years working with TechnoPlas, one of our major distributors Labtek Pty Ltd, based in Queensland, announced they would be ceasing to trade as of 27th of October, 2023.

In Labtek's announcement they provided TechnoPlas's direct contact details for you to receive on going supply and support for our products. These contact details were provided at short notice as our main concern was to ensure an immediate contact point for our end users.

In the long term, as a high volume manufacturer, we are only structured to deal in pallet quantities and do not have the internal or external resources to provide the level and speed of service to meet your day to day needs.

Therefore to ensure you continue to receive a high level of personal service for TechnoPlas product, close to your facility, we are partnering with our existing long term distributor, Rowe Scientific to support Labtek customers in your region.

If you have any questions or concerns, either now or in the future, please do not hesitate to contact us

Kind Regards

Stefan Billing and Nigel Wilkinson
