CLIENT OF THE MONTH

A worker onsite at the Boddington gold mine. *Image courtesy of Newmont Mining.*

NEWMONT MINING

Newmont's Boddington mine is located within the Saddleback greenstone belt in Western Australia. A large gold and copper mine, Boddington is located 16 km from the rural farming town of Boddington and 120 km from Western Australia's capital city, Perth.

Boddington was a three-way joint venture between Newmont, AngloGold Ashanti and Newcrest. In 2009, Newmont purchased AngloGold Ashanti's shares to become the sole owner of Boddington. Commercial production began in 2009, and in March 2011 the operation produced its first one million ounces of gold.

Winners are chosen by our computer on a random basis. The prize is the client's choice of \$100 worth of laboratory items from a supplied list.

Clever Person Quiz

Q: Which class of chemicals contain the largest variety of elements in a single compound?

Did you Know?

(Answer to last edition's Clever Person Quiz)

Q: Does sound travel faster in fresh water or seawater?

A: Sound travels approximately 3% faster in seawater. This follows the general trend of denser substances transmitting sound faster.

CRC Handbook of Chemistry and Physics, 93rd Ed.; Haynes, W.M. CRC Press, Boca Raton, FL, 2012 Section 14-47

Saying of the Month

"Organic chemistry is the chemistry of carbon compounds. Biochemistry is the study of carbon compounds that crawl."

- Mike Adams

MERRY CHRISTMAS AND A HAPPY NEW YEAR!

Rowe Scientific would like to wish all our loyal and new clients a safe and happy Christmas season.

NOW BEGINNING THE 2016-17 YEAR - HELP US REACH OUR TARGET OF \$30K!

Rowe Codes that see \$2 per item sent to the Royal Flying Doctor

Service of Australia:

Quantumclean: CQ1050, CQ1000, CQ1100.

pH Buffers: CB3515, CB3115, CB2660.

Introducing the **CONSUL21** Centrifuge

HIGH CAPACITY ON A BENCH TOP - until now only available on devices for research.

TFT TOUCH SCREEN - controls made easy with simple value selection, one screen features a timer, RPM/RCF acceleration and braking.

USER MENU - allows customisation of values such as open lid, RPM/RCF locking along centrifugation, countdown and more.

Features:

- Highly functional. Can spin up to 4 x 400mL, rotor for microplates, microtubes as well as a wide set of adapters for each size centrifuge tube.
- Maintenance free induction motor, high speed up to 20.804xg/14.300RPM.
- 16 memories for programs.
- Safety features include lid locking and holding, imbalance switch and more.

Does not include rotor

Dear Clients,

Greetings from the South Australian office. As I write this South Australia is in the grip of a catastrophic fire on the Northern outskirts of Adelaide dubbed the "Pinery Fire". We are sincerely grateful to all those men and women from the Country Fire Service (CFS) who put themselves in harm's way to protect people, livestock and property at this difficult time.

Ms Victoria Treacy has joined us here in Adelaide as a new member in our team; Victoria has a Bachelor of Medical Science and is learning our systems and product range. She will be touching base with her new clients over the next few weeks.

Our Edition 11 Vintage Catalogue is back from the printer and is in circulation at the moment. Daniel is currently in the South East distributing and promoting it. The rest of our Winery clients can expect to see or hear from Daniel or I very soon.

On behalf of all the team here in SA we thank you for your business and support and would like to wish all of you and your families a safe and Merry Christmas and a Happy New Year. We are also open during the holiday season on all days except for public holidays. We would encourage you to look at your stock levels and consider a top up before manufacturers shut down for Christmas and freight companies have only skeleton crews.

All the best from,

Doug, Steve, Mark, Michael, Daniel, Paula, Goldy and Victoria.

Dear Clients,

It has been a very busy year and as this year draws to an end we would like to thank you all for your continued support.

As an independent, fully Australian owned Scientific Supply company, we appreciate your business as this allows us to remain in the market place and to continue to service your laboratory needs.

We wish you and your families all the best for a safe and enjoyable Festive Season and prosperity in the New Year.

Reminders: Please check our web site as we have made many improvements to assist you with accessing the information you need.

Merry Christmas from the Queensland team,

Yvonne Dive, Martin Bullock, Brian Bishop, Sean Wyatt, Josephine Cabagui, Leon Dive, Sean Afflick, John DeRuyter, Steve Taylor, Adam Bergman & Colin Silk.

Dear Clients,

It must be the season to be jolly as the weatherman is definitely having a good time! Treating us all to either cold, warm or wet days in true Melbourne fashion.

Our Victorian team are coming to terms with life "Post Joe." I am sure you will all join us in thanking Joe for his tireless contribution and wishing him "a wonderful retirement" after 52 years in the industry.

A big welcome to Amanda, a qualified Analytical Chemist, who is taking over Joe's internal sales role. Garry will be looking after Joe's Tasmanian clients.

The marketing department has been very active with specials "flying thick and fast". If you currently need a sieve shaker you cannot beat the deal on offer at the moment. Please have a look at the website and while you are there it won't hurt to have a look at the Centrifuge special as well as the "testing equipment" and the Milli-Q and Guys we are practically giving stuff away – make the most of it!

Wishing you all a Merry Christmas and a happily prosperous New Year.

Your team in Victoria,

Garry, Mango, Nic, Daniel, Adam, Brian and Amanda

Dear Clients,

We are still busy in the West and will be on board, apart from the Public Holidays, with a crew to keep you in operation over the Christmas break.

As the year comes to an end I would like to thank you for your business to date and trust that we can continue to supply your needs into the future. At Rowe Scientific we pride ourselves on service. I am always interested in hearing from you on any issue. (We also log compliments!)

My mobile number is 0418 246 207 or you can contact me at peter.sommers@rowe.com.au

From the Team in Western Australia we would like to wish you a Merry Christmas and a Happy New Year. If you are travelling, stay safe.

Dear Clients,

Thank you for your support and Seasons Greetings from the NSW team

As the end of another year beckons it is an appropriate time to take stock and review the year. 2015 was a very rewarding year for Rowe in NSW. The number of customers utilising Rowe grew significantly and the range of markets serviced continued to evolve.

Rowe's stated mission is to keep clients supplied with the scientific items that they need to do their work and the NSW team were resolute in their focus to ensure this was evident in all your contact with the NSW office.

Our success is solely due to the support from a mix of existing and new customers and as the festive season approaches it is fitting to both acknowledge and thank you for your support on behalf of the NSW team and to wish each one of you a safe and peaceful Christmas and a healthy and prosperous New Year.

We look forward to continuing to work with you in 2016.
